Norwich Downed The Leaders

New Twirler, Mooney, Works Nice Against Willimantic -Middletown Takes Close One from New London-Academy Loses at Hospital-Choynski's Letter Gives Tip on Jeffries-Other Sports.

(Special to The Bulletin.)

Willimantic, May 19.—The Rosebuds took a crimp in the strice of the league leaders this afternoon by defeating Dunn's and O'Connell's Coits on Windham field before a fine midweek crowd numbering close to 400, and went back to Norwich with another victory to their credit, having won in a game replete with peculiar situations. The final score was 7-3.

The game was a fairly good one for seven full innings, the score being 2 all at the end of that session, but lacked the life and ginger that make real fans enthuse.

Joe Doyle ,a local boy, was on the firing line for the home team and pitched a good uphili game, striking out twelve men and only allowing seven hits. Four of these were scattered through eight innings, but he allowed the sluggers from Norwich three clean ones in succession in the ninth (Special to The Bulletin.)

dean ones in succession in the ninth, two of which were two sackers. Doyle also hit the first two men up and issued four transportation tickets. His support was rather had in the fourth inning, when two runs were scored on two scattered hits and some poor ball playing.
There were no real features aside

There were no real features aside from Doyle's goodly number of strike-outs and the two doubles of James Nichols and O'Mara in the ninth in-ning. Noonan ran bases well and, in fact, the whole Norwich team was more alive in that department.

Mooney's fine control of the ball and good headwork used in allowing but three scattered bits up to the minth were also conspicuous factors in Norwich's victory that was partially a fandout.

The complete box score tells the tale

MARKET "SOLD OUT."

Buying Close to the Point of Starvation Record for Duliness Reduced.

New York, May 19 .- The professions element in the stock market defined i as "sold out" today, meaning that no stocks were offered for sale. The buystocks were offered for sale. The buying was meagre to the point of starvation, but bids had to be advanced,
nevertheless, to secure stocks. Dealings feil to a lower level even than
yesterday, reducing the record for
duliness since July of 1908 correspondingly, but the facility with which
prices rose changed the aspect of
sluggishness and stagnation. What
was rather remarkable was that the
trading element took small advantage
of this price movement to deal in
fustuations. The neglect was partly
due to the fact that the stock exchange

The London exchange not at all, in observance of the funeral day of the late king of England.

The day's small dealings were congested in a few stocks and some special causes were assigned for the save most conspicuous and the operations in that stock were ascribed to a speculative party lately active in the Wabashes and Rock Island. Clinains were circulated of large concealed assets in the Reading treasury in the form of equities in securities held which are said to be undervalued in the company's balance sheet. No new facts were adduced to account for the movement. The Canadian Pacific rise was accompanied by rumors of intended increase in disbursements to stockholders.

Some of the general developments were in favor of the advance. More confidence was felt in the success of negotiations for the saie of bonds abroad. Positive announcement of the placing of \$10,000,000 of Cleveland, Clincinnati, Chicago and St. Louis debentures in France conduced to this feeling. There were intimations also that official announcement was to be made regarding the St. Paul transaction. An easier tone in the early foreign exchange market was corroborative of

official announcement was to be made regarding the St. Paul transaction. An easier tone in the early foreign exchange market was corroborative of the opinion. At the same time the rate for call loans ran off to below three per cent. although the almost total lack of demand for stock market use left this showing without much significance. The banks are gaining cash both from the sub-treasury and on the interior movement.

Reports from leading authorities in the iron and steel trade showed an improved tone, which was due more to belief that a turn in conditions for the better was imminent than to any actual change. New orders for railroad equipment were among the news items from the trade. The better sentiment in the copper trade was sympathetic. The day's crop advices also were hopeful.

The postponement of the Chesapeake and Ohio dividend meeting and a rebound in foreign exchange rates were instrumental in the rather heavy closing tone of the market.

Bonds were irregular. Total sales, par value, \$1,152,000. United States

bonds were unchanged on call. STOCKS. High. Low. Close.

WITH RIDICULOUS EASE. An Inside Tip from Joe Choynski-Letter to Alderman Douglass Exclu-sively Published by The Bulletin.

sively Published by The Bulletin.

Here you are—you, the followers of the Jeffries-Johnson go! An unimpeachable and exclusive line on the big boilermaker's true form, which The Bulletin is able to furnish to its sport readers through the courtesy of Alderman Stewart Douglass of New Rochelle. In a latter directly from the training camp to Alderman Douglas, which is reproduced below. Joe Choynski, Jeffries' trainer in chief, gives a detailed account of conditions at the camp, and gives it as his unbiased opinion that Jeffries will prove the physical marvel of the world and win with ridiculous ease from the big black. The following is Choynski's fetter:

Now, to begin; did I not think that Jeff could get in shape or that he had more than a chance (I say more than a chance, because if a man has a chance he don't win as it is too remote) I would pack up and come home. We get up at 5 a. m. and cover ten miles before 7 a. m., and Jeff runs two miles, not a stop, and then walks and sprints for 150 yards at a time, and he is not a bit fatigued.

We play handball in the hot sun at 1 a. m. for one hour and box six and nine rounds. After lunch more handball, gym. work, play ball or row a boat. Bed at 8 p. m.

When the crowd sees him strip and in action they will see the greatest athlete in modern times. He has not a bit of superfluous flesh, as hard as nails and will weigh about 220 pounds, no more, maybe less. No liquors are used. He is as joilty as a boy with his first firecracker. His hair is thin, but he has not a line on this face, and the drawn appearance is due to pickling his face in lime.

The Academy's nice chance to walk away with the game was blocked by the fancy twirling of Greenway.
